Email: saharjwar86@gmail.com

Professional Summary

Highly motivated **Frontend Developer** specializing in **Next.js, React, and TypeScript** to build scalable, high-performance web applications. Expert at converting complex Figma designs into pixel-perfect, responsive user interfaces using **Tailwind CSS and Shadcn/ui**. Possesses **full-stack capability** (PostgreSQL/Drizzle ORM) for seamless API integration, backed by a strong competitive programming background focused on writing clean, optimized frontend logic.

Technical Skills

- **Frontend Development:** Next.js 14/15 (App Router), React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Shadcn/ui, HTML5, CSS3, Bootstrap
- **Full-Stack Capabilities:** RESTful API Integration, Next.js Server Actions, PostgreSQL (Neon DB), Drizzle ORM, Full CRUD Operations
- **Architecture & State Management:** Context API, React Hooks, Client-side Filtering, LocalStorage State Persistence, Responsive Web Design
- **Tools & Platforms:** Git, GitHub, Figma to UI Conversion, Postman, Cloudflare, Railway, WordPress

Key Projects

Full-Stack User Management System | Live Demo : <https://crud-user>

- **Tech Stack:** Next.js (App Router), TypeScript, Tailwind CSS, Shadcn/ui, Drizzle ORM, PostgreSQL (Neon)

- Engineered a responsive dashboard utilizing **Shadcn/ui** and **Tailwind CSS** to deliver advanced client-side table filtering, sorting, and real-time user notifications.
- Eliminated runtime UI errors by leveraging **TypeScript** and **Drizzle ORM** to ensure 100% end-to-end type safety from the form inputs down to the database schema.
- Streamlined data mutations by connecting the frontend user interface directly to a **PostgreSQL** database using **Next.js Server Actions**.

MovieDB Discovery Platform | Live Demo : <https://moviedb>

- **Tech Stack: Next.js, REST API, Tailwind CSS, JavaScript (ES6+), Next/Image**
- Developed a dynamic discovery platform by integrating external **REST APIs** to fetch, filter, and render real-time media data.
- Optimized Core Web Vitals and page load speeds using **Next.js** Incremental Static Regeneration (**ISR**) and native Next/Image lazy-loading.
- Created fluid navigation paths across nested media and cast profiles by implementing complex client-side search logic and Next.js Dynamic Routing.

E-commerce Web Application (Shop.Co) | Live Demo : <https://shop-co>

- **Tech Stack: React.js, JavaScript, Tailwind CSS, LocalStorage, Context API**
- Architected a complete online storefront with complex shopping cart logic, managing global state efficiently via the **React Context API**.
- Built a custom authentication flow and persistent data retention utilizing browser **LocalStorage** to maintain cart items across sessions.
- Elevated the user experience (UX) by styling pixel-perfect, responsive component layouts with **Tailwind CSS** and building custom **Skeleton Loading** components to mask API latency.

Professional Experience

Front-End Developer Intern | VICA WEB SOLUTION | (Dec 2025 – Apr 2026)

- **Core UI Development:** Built and styled highly responsive web pages from scratch using **HTML5**, **CSS3**, and **JavaScript (ES6+)**.

- **Modern Frameworks:** Leveraged **Bootstrap** and **Tailwind CSS** to accelerate UI development while maintaining pixel-perfect design accuracy from **Figma**.
- **Figma to React:** Converted high-fidelity Figma designs into pixel-perfect, responsive UI components using **Tailwind CSS**.
- **API Integration:** Optimized data fetching and state management by integrating RESTful APIs with **React Hooks**.
- **Team Collaboration:** Worked in an **Agile** environment using **Git/GitHub** for version control and collaborative code reviews.
- **Performance:** Enhanced web performance and cross-browser compatibility through clean, modular code practices.

Junior Frontend Developer & WordPress Publisher | Divvmen (Remote) |

(Jun 2023 – Sep 2023)

- Maintained responsive user interfaces and handled large-scale data updates for e-commerce clients.

Education

Diploma of Software Engineering | Damascus University (2022 - 2023)

- **Graduation Project:** Hospital Management System (Score: **92%** - Highest in the year).
- Responsible for full frontend development and C# / ASP.NET MVC backend integration.

Soft Skills :

- Team Collaboration, Critical Thinking, Rapid Adaptability to New Tech, Strong Communication, Project Ownership , Problem Solving.
